MANAGEMENT DISCUSSION AND ANALYSIS REPORT

MANAGEMENT DISCUSSION & ANALYSIS REPORT

We submit herewith our Management Discussion & Analysis Report on the Company's Business for the year ended 31st March, 2025. We have attempted to include on all specified matters to the extent relevant or within limits that in our opinion are imposed by the Company's competitive position.

OVERVIEW OF GLOBAL ECONOMY

Global economic growth declined marginally from 3.3% in 2023 to an estimated 3.2% in 2024. This was marked by a slowdown in global manufacturing, particularly in Europe and parts of Asia coupled with supply chain disruption and weak consumer sentiment. In contrast, the services sector performed more creditably.

The growth in advanced economies remained steady at 1.7% from 2023 to 2024 as the emerging cum developing economies witnessed a growth decline at 4.2% in 2024 (4.4% in 2023).

On the positive side, global inflation was expected to decline from 6.1% in 2023 to 4.5% in 2024 (projected at 3.5% and 3.2% in 2025 and 2026 respectively). This decline was attributed to the declining impact of erstwhile economic shocks, and labour supply improvements. The monetary policies announced by governments the world over helped keep inflation in check as well.

The end of the calendar year was marked by the return of Donald Trump as the new US President. The new US government threatened to impose tariffs on countries exporting to the US unless those countries lowered tariffs for the US to export to their countries. This enhanced global trade and markets uncertainty and emerged as the largest singular uncertainty in 2025.

OVERVIEW OF INDIAN ECONOMY

The Indian economy was projected to grow at 6.5% in FY 2024-25, compared to a revised 9.2% in FY 2023-24. This represented a four-year low due to a moderate slowdown within the Indian economy (marked by slower manufacturing growth and a decline in net investments). Despite the slowdown, India retained its position as the world's fourth-largest economy.

India's nominal GDP (at current prices) was H331 trillion in FY 2024-25 (H301.23 trillion in FY 2023-24). The nominal GDP per capita increased from H2,15,936 in FY 2023-24 to H2,35,108 in FY 2024-25, reflecting the impact of an economic expansion.

The Indian rupee weakened 2.12% against the US dollar in FY 2024-25, closing at H85.47 on the last trading day of FY25. In March 2025, the rupee recorded the highest monthly appreciation since November 2018, rising 2.39% (arising out a weakening US dollar).

Inflationary pressures eased, with CPI inflation averaging 4.63% in FY 2024-25, driven by moderating food inflation and stable global commodity prices. Retail inflation at 4.6% in FY 2024-25, was the lowest since the pandemic, catalysing savings creation

India's foreign exchange reserves stood at a high of \$676 billion as of April 4, 2025. This was the fourth consecutive year when rating upgrades outpaced downgrades on account of strong domestic growth, rural consumption, increased infrastructure investments and low corporate leverage (annualized rating upgrade rate 14.5% exceeded the decadelong average of 11%; downgrade rate was 5.3%, lower than the 10-year average of 6.5%).

Gross foreign direct investment (FDI) into India rose 13.6% to \$81 billion during the last financial year, the fastest pace of expansion since 2019-20. The increase in the year was despite a contraction during the fourth quarter of 2024-25 when inflows on a gross basis declined 24.5% to \$9.34 billion due to the uncertainty caused by Donald Trump's election and his assertions around getting investments back into the US.

India's exports of goods and services are projected to reach \$800 billion in FY 2024-25, up from \$778 billion in the previous fiscal year. The Red Sea crisis impacted shipping costs, affecting price sensitive exports. Merchandise exports were expected to grow 2.2% YoY, reaching \$446.5 billion.

India's net GST collections increased 8.6%, totalling H19.56 lakh Crore in FY 2024-25. Gross GST collections in FY 2024-25 stood at H22.08 lakh Crore, a 9.4% increase YoY.

India's services sector grew an estimated 7.3% in FY 25 (9.0% in FY 24), driven by public administration, defence and other services (expanded at 8.8% as in the previous year). In the infrastructure and utilities sector, electricity, gas, water

supply and other utility services grew a projected 6.0% in FY 25, compared to 8.6% in FY 24. Meanwhile, the construction sector expanded at ~8.6% in FY 25, slowing from 10.4% in the previous year.

Manufacturing activity was subdued in FY 25, with growth projected at 4.3%, which was lower than 12.3% in FY 24. Moreover, due to lower public spending in the early part of the year, government final consumption expenditure (GFCE) is anticipated to have slowed to 3.8% in FY 25, compared to 8.1% in FY24.

Monsoons: The India Meteorological Department predicted an 'above normal' monsoon in 2025. This augurs well for the country's farm sector and a moderated food inflation outlook.

Easing inflation: India's consumer price index-based retail inflation in March 2025 eased to 3.34 per cent, the lowest since August 2019, raising hopes of further reportate cuts by the Reserve Bank of India.

Deeper rate cuts: In its February 2025 meeting, the Monetary Policy Committee (MPC) reduced policy rates by 25 basis points, reducing it to 6% in its first meeting of FY 2025-26. Besides, India's CPI inflation is forecasted at 4% for the fiscal year 2025-26.

COMPANY & INDUSTRY STRUCTURE

India's construction industry is engaged in growth, which mainly includes real estate and urban development projects. Given the nation's objective to modernize infrastructure and bring about a 'smart' development in its cities, India is expected to emerge as the third largest construction market by 2025. INDEPENDENT AUDIT REPORT TO THE MEMBERS OF KANORIA ENERGY & INFRASTRUCTURE LIMITED (Formerly Known as A Infrastructure Limited)

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of Kanoria Energy & Infrastructure Limited (Formerly Known as A Infrastructure Limited) ("the Company"), which comprise the balance sheet as at March 31, 2025, the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the material accounting policies and other explanatory information (herein referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting standards specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended (the Ind AS) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards(SAs) are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India(ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the (ICAI's)Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Description of Key Audit Matter

Revenue recognition (refer note No. 1 (10) to the Financial Statements)

The Key Audit Matter	How the matter was addressed in our audit	
Revenue Recognition	Our audit procedures included:	
Revenue is recognized when the control of the underlying products has been transferred to the customer. There is a risk of revenue being overstated due to fraud resulting from the pressure on management to achieve performance targets at the reporting period end. Revenue is measured net of discounts, rebates and incentives earned by customers on the Company's sales.	 a) Assessed the appropriateness of the company's revenue recognition accounting policies, including those relating to discounts, incentives and rebates by comparing with the applicable accounting standards; b) Tested the operating effectiveness of the general IT control environment and key IT application controls over recognition of revenue, calculation of discounts, incentives and rebates; 	

Due to the Company's presence across different marketing regions within the country and the competitive business environment, the estimation of the various types of discounts, rebates and incentives to be recognized based on sales made during the year is material and considered to be judgmental.

Therefore, there is a risk of revenue being misstated as a result of faulty estimations over discounts, incentives and rebates and therefore considered as a key audit matter.

- c) Performed test of details:
 - Agreed samples of sales, discounts, incentives and rebates to supporting documentation and approvals;
 - ii) Obtained supporting documents for sales transactions recorded either side of year end as well as credit notes issued after the year ended to determine whether revenue was recognized in the correct period.
- d) Comparing the historical discounts, rebates and incentives to current payment trends. We also considered the historical accuracy of the Company's estimates in previous years.
- e) Assessing manual journals posted to revenue to identify unusual items, and
- f) Considered the appropriateness of the company's description of the accounting policy, disclosures related to revenue, discounts, incentive and rebates and whether these are adequately presented in the financial statement.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable

ANNUAL REPORT 2024-25

assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality, in the context of any entity's financial statement taken as a whole, is the nature or magnitude of financial information, or both that individually or in the combination with other information is reasonably be expected to influence the economic decisions of a reasonably knowledgeable primary user of general purpose financial statements. In planning the scope of our audit work, evaluating the results of our work and evaluating the financial effect of any identified omissions, misstatements or obscuration in the financial statements we consider quantitative materiality and also the qualitative factors.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act:
 - In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act.

"ANNEXURE B"

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE IND AS FINANCIAL STATEMENTS OF KANORIA ENERGY & INFRASTRUCTURE LIMITED (FORMERLY KNOWN AS A INFRASTRUCTURE LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the Internal Financial Controls over financial reporting of **KANORIA ENERGY & INFRASTRUCTURE LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Company Information and Material Accounting Policies

A. Company Information:

KANORIA ENERGY & INFRASTRUCTURE LIMITED (FORMERLY KNOWN AS AINFRASTRUCTURE LIMITED)

(the 'Company') is a public limited company domiciled in India and is listed on the Bombay Stock Exchange (BSE). The Company is incorporated on 30th August 1980. The name of the company has changed from A Infrastructure Limited to Kanoria Energy & Infrastructure Limited with effect from 19.04.2023. The Company is mainly engaged in the business of manufacturing of A.C. Pressure Pipes, Couplings, A.C. Sheet & Moulded Goods and laying & jointing of Asbestos Cement Products.

B. Basis of Preparation

1. Statement of Compliance

Thefinancial statements are prepared on accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable), applicable provisions of the Companies Act, 1956.

2. Basis of measurement/Use of Estimates

- (i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities that are measured at fair value. The methods used to measure fair values are discussed in notes to financial statements.
- (ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized

3. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (upto two decimals), except as stated otherwise.

C. Material accounting policies

A summary of the material accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

1. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- · Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets including deferred tax asset are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities including deferred tax liability are classified as non-current.

2. Property Plant & Equipment

2.1. Initial recognition and measurement

Items of Property, Plant and Equipment are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of Property, Plant and Equipment are capitalized.

2.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in Statement of Profit and Loss as incurred.

2.3. De-recognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of Property, Plant and Equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, Plant and Equipment, and are recognized in the Statement of Profit and Loss.

2.4. Depreciation/Amortization

Depreciation is recognized in Statement of Profit and Loss on a Straight-line method basis over the estimated useful lives of each part of an item of Property, Plant and Equipment.Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Assets costing up to Rs. 5,000/- are fully depreciated in the year of acquisition.

Depreciation on additions to/deductions from Property, Plant and Equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a Property, Plant and Equipment along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

For charging depreciation falling useful life is considered based on the internal technical assessment by the management or as per Schedule III of Companies Act, 2013.

TYPE OF ASSETS	PERIOD
Leasehold Land	Lease period
Building	30 Years
Plant & Machinery	25 Years
Electric Installation	10 years
Laboratory Equipment's	10 Years
Computer	3 Years
Furniture & Fixtures	10 Years
Office Equipment	5 years
Vehicles	8 Years
Water Line Installation	25 Years

3. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

4. Intangible assets and Intangible Assets under Development

4.1. Initial recognition and measurement

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortization /depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

4.2. De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

4.3. Amortization

Intangible assets having definite life are amortized on straight line method over their useful lives. Useful life of computer software is estimated at 3 years. If life of any intangible asset is indefinite, then it is not amortized and tested for Impairment at the reporting date.

5. Borrowing Cost

Borrowingcosts that are directly attributable to the acquisition, construction/exploration/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are charged to revenue as and when incurred.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization.

6. Inventories

Inventories are valued at the lower of cost and net realizable value.

- (i) The cost of raw materials, stores, components at factories are taken at weighted average rate, after providing for obsolescence.
- (ii) The cost of finished goods is determined by taking material, labour and related factory overheads including depreciation on Property, Plant and Equipment. The cost of work in process is taken at material cost and stage-wise overhead cost including depreciation on Property, Plant and Equipment.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

7. Cash and Cash Equivalent

Cash and cash equivalent in the Balance Sheet comprises cash at banks, cash in hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Provisions, contingentliabilities and contingent assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

No contingent asset is recognized but disclosed by way of notes to accounts only when its recognition is virtually certain.

9. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of Profit and Loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in foreign currency are translated using the exchange rate at the date of the transaction. In situations, when the non-monetary assets/ liabilities are acquired by paying/receiving foreign currency in advance then the same should be translated at a rate which exists on the date when such advance payment/receipt was made.

10. Revenue

a) Revenue Recognition

The company derives revenue primarily from sale of manufactured goods and related services.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers of an amount that reflects the consideration the company expects to receive in exchange for products or services.

The company recognizes provision for sales return, based on historical results, measured on net basis of the margin of the sale. Therefore, a refund liability, included in other current liabilities, are recognized for the products expected to be refunded.

The company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue in excess of invoicing are classified as contract assets while invoicing in excess of revenues are classified as contract liabilities.

b) Other Income:

i) Interest Income

For all financial instruments measured at amortized cost and interest-bearing financial assets classified asfair value through other comprehensive income, interest income is recorded using the effective interestrate (EIR). The EIR isthe rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income isincluded in otherincome in the statement of profit orloss.

ii) Dividend

Dividend Income isrecognizedwhen the Company's rightto receive is established which generally occurs when the shareholders approve the dividend.

iii) Miscellaneous Income

Other income is recognized in the Statement of Profit and Loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably.

11. Employee Benefits

11.1. Short Term Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

11.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two types:

11.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which company pays a fixed contribution and will have no further obligation.

11.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. Leave Encashment payable at the end of the employment is also a post employment defined benefit plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government

securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in OCI in the period in which they arise.

12. Income Tax

Income tax expense comprises current and deferred tax. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current income taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Minimum Alternative Tax credit (MAT Credit) is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Additional income taxes that arise from the distribution of dividends are recognized at the same time when the liability to pay the related dividend is recognized.

13. Leases

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be

exercised. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

14. Impairment of Non-financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount (higher of its fair value less costs to disposal and its value in use) is estimated.

An impairment loss is recognized if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment losses are recognized in Statement of Profit andLoss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in previous years are assessed at each reporting date. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

15. Operating Segments

In accordance with Ind AS 108 – 'Operating Segments', the operating segments used to present segment information are identified on the basis of internal reports used by the Company's Management to allocate resources to the segments and assess their performance. The Board of Directors is collectively the Company's 'Chief Operating Decision Maker' or 'CODM' within the meaning of Ind AS 108. For management purpose company is organized into major operating activity of A.C. Pressure Pipes and Sheetsmanufactured in India.

16. Dividends

Dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings Per Share

Basic Earnings per Equity Shareis computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows.

20. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

20.1. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in financial income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI (Fair Value through OCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than subsidiaries and joint ventures are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However the company may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments in subsidiaries and joint ventures are measured at cost.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- · The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expectedcredit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and aremeasured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Trade receivablesor any contractual righttoreceive cashor another financial asset that result from transactionsthat are within the scope of Ind AS 11 and Ind AS 18

The Company follows 'simplified approach' forrecognition of impairment loss allowance on:

- Trade receivables or contract assets resulting fromtransactions within the scope of Ind AS 11 and Ind AS 18, ifthey do not contain a significant financing component
- Trade receivables or contract assets resulting fromtransactions within the scope of Ind AS 11 and Ind AS 18that contain a significant financing component, if the Company applies practical expedient to ignoreseparation of time value of money, and

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

20.2. Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognized in the Statement of Profit and Loss as finance cost.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are an integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value on the reporting date. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

Hedges that meet the criteria for hedge accounting are accounted for as follows:

a) Cash flow hedge

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in the cash flow hedge reserve being part of other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the underlying transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction.

b) Fair Value Hedge

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss.

D. Recent Pronouncements in Indian Accounting Standard:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS 101-First-time Adoption of Ind AS, Ind AS 103- Business Combinations, Ind AS 104-Insurance Contracts, Ind AS 105-Non-Current Assets Held for Sale and Discontinued Operations, Ind AS 107-Financial Instruments: Disclosures, Ind AS 109- Financial Instruments, Ind AS – 117 Insurance Contracts (replaced Ind AS- 104) and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements to the extent applicable to it and based on its evaluation has determined that it does not have any significant impact in its financial statements.

E. Major Estimates made in preparing Financial Statements

1. Useful life of property, plant and equipment

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and is adjusted prospectively, if appropriate.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

Note No. 51 - Disclosure as per Ind AS 113 'Fair Value Measurement'

Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:-

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

- **Level 1** Level 1 hierarchy includes financial instruments measured using quoted prices.
- **Level 2** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market
- **Level 3** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Valuation Techniques used to determine fair values:

Specific valuation technique is used to determine the fair value of the financial instruments which include:

- i) For Investments in Equity Investments- Quoted Market prices are used
- ii) For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.

Note No. 56 - Licensing agreement with Gujarat Composite Ltd.

The Company has entered into License Agreement with Gujarat Composite Limited (GCL-Licensor) on 07.04.2005 for running their unit for manufacturing of AC Sheet and Cement manufacturing units at Digvijay Nagar, Ranip, Ahmedabad for a period of 84 month on license basis, extendable to further period of 84 months on mutual consent. As per the License Agreement upon expiry of license period, the GCL would be under obligation to take over all the current assets of Kanoria Energy & Infrastructure Ltd. (Licensee) pertaining to or in connection with the operation of AC Sheet and Cement manufacturing units at their book value and make the payment if any due to be received for this to the Licensee forthwith.

Further, after expiry of the license period or the extended period, the Licensee shall vacate and handover the possession of AC Sheet and Cement manufacturing units to the Licensor upon receipt of payment if any due to be received from the Licensor under this agreement. The company served notice in March, 2012 to GCL to pay all dues including book value of current assets pertaining to or in connection with the operation of AC sheet and Cement manufacturing unit as per the license agreement. However, the Licensor has failed to take over the possession of Unit by making payment of dues on expiry of the license period.

Subsequently an application dated 23.05.12 was filed by Labour Union viz Gujarat Mazdoor Panchayat, before the Hon'ble Industrial Tribunal Ahmedabad, wherein Industrial Tribunal vide its order dated 07.06.2012 directed to Kanoria Energy & Infrastructure Ltd. to run the Production activities & continue to pay wages, in the same manner to all those workers who are employed and utilized by Kanoria Energy & Infrastructure Ltd for the production activities at the factory situated at Digvijay Nagar, Ranip, Ahmedabad provided that no hindrance, obstructions and the like is caused by GCL and/or other authorities. GCL is party in the said proceeding and had given an undertaking to the Industrial Tribunal to this effect. In spite of notices being served to Licensor from time to time, possession of the unit has not been taken back by GCL. Based on the above facts, circumstances and uncertainty of time regarding taking back of the possession of the Unit by making payment of dues in terms of licence agreement, the company has decided not to charge interest on balance recoverable from GCL from Financial Year 2014-15 onwards. Further Bonus in addition to leave and license fees recoverable from GCL has also not been provided in the books since Financial Year 2014-15 onwards. Year wise amount not provided in the books since financial year 2014-15 are as under: -
